Information from Journal of Mathematics, The University of Tokushima

(徳島大学数学紀要からのお知らせ)

Transfer of public transmission rights

The editorial committee of Journal of Mathematics, The University of Tokushima would like to ask all authors of “Journal of Mathematics, Tokushima University” from Vol.1 (1967) to Vol.28 (1994) to transfer the public transmission rights of his/her papers partially to the Department of Mathematical and Natural Sciences, Faculty of Integrated Arts and Sciences and the Department of Mathematics, Faculty of Engineering of Tokushima University in order to meet various demands for electronic access in the future. More precisely, we would like each author to agree the following two items.

1. To let her/his article to be accessible from internet at the homepage of The National Institute of Information’s Nii Scholarly and Academic Information Navigator (CiNii).
2. To let the Department of Mathematical and Natural Sciences, Faculty of Integrated Arts and Sciences and the Department of Mathematics, Faculty of Engineering of Tokushima University authorize a third party to share the same public transmission rights as in the item 1.

We note that “Journal of Mathematics, Tokushima University” was published from 1967 to 2000. The new series “Journal of Mathematics, The University of Tokushima” started in 2001 and the volume number of new series succeeds to that of former series.

From 2004, Vol.29 (1995)–Vol.34 (2000) of former series and Vol.35 (2001)–Vol.37 (2003) of new series can be available from internet at (CiNii). Moreover we have been asking the authors of new series to respond (positive or negative) agreement for online publication of their papers, and so far we have received only positive answers. Thus the volumes Vol.39 (2005)–Vol.41 (2007) can be freely accessible at the homepage of the Department of Mathematical and Natural Science, Faculty of Integrated

Arts and Sciences. If however, you disagree some of your paper(s) (Vol.1–Vol.34) to be published online, please let us know in writing. Once we confirm that you are the holder of the copyright of the paper and do not consent to have it available online, we will ask (CiNii) to make the paper(s) unavailable at (CiNii).

Thank you for your attention.
